

MCH-1210A

Features :

- Charging process protection short circuit preventio
- Intelligent soft start battery and charger protection
- Intelligent temperature control Improve charging efficiency
- Low temperature working increase service use time
- Reverse connect protection protective integral circuit
- Automatic power-off remove hidden dangers

Output DC : 10A Max

Input AC : 100-240V.50-60Hz

Applicable batteries : 12V

MADE IN CHINA
